

### **Kelvin and Melissa**

BEAU lives with Kelvin and Melissa and their dogs on a farm in Te Puke. Melissa writes; Beau is doing so well, she is feisty which is a good thing in this household. We are having so much fun with her, she's a real character but so well trained. At the moment she is trying to get into a vase to get the water LOL. You have done an amazing job with her, she is so confident and I love that she was already used to dogs when we got her. Thank you so much, she is already a member of the family. Now she is trying to type and eat my fingers. She is just gorgeous! Mel

**Kelvin writes;** Beau is just awesome! She had my German Shorthaired Pointer in a quivering mess for first few days, had to keep him on a short leash - he thought we'd brought him a snack! But Beau was so confident having been brought up with your dogs, that she just kept trying to play with him till he gave in and now they are best friends. It's hard to believe my hunting dog has such a soft spot for her! She loves her wild food, eats everything I bring home from a hunt, rabbits hearts, liver, kidneys, wings of game birds. She loves to go "fishing" for bits of rabbit we put in water containers. We are going to get a small outdoor pool for her. She has had no toilet accidents. The only time she is vocal is when Melissa comes home from work and Beau follows her round telling Mel about her day.

She has an amazing purr and just loves her new home. She's a very happy girl! Kelvin
