

### **Kim,James and Neeva Rose Snell**

After speaking with Janne on the phone and thankfully snapping up the last kitten available, she has been wonderful to deal with. She has kept in contact with us while we waited for our kitten to grow, sending weekly updates, photos and videos of her. She was very prompt to answer questions and give advice. We looked forward to these as we live too far away to visit before pick up.

When we finally picked up our little kitten "Ginger" we were warmly welcomed and we were so pleased to see how healthy and happy the kittens and other cats were. Janne obviously loves her cats (and dogs) and they are all very well looked after.

Our little Ginger is beautiful and very loving. She adores cuddles and loves to sit on our lap. She's also very playful, spending hours playing with my daughter. She really enjoys being outside climbing and exploring.

Thanks so much Janne for such a wonderful addition to our family. We couldn't be happier and have recommended you and your kittens to our family and friends.

We will keep in touch and send pics as she grows.

Kindest regards Kim,James and Neeva Rose Snell
